Experience

Web Developer

DANIMA Creative Group

06/2019 - Present

Niagara Falls, Ontario

- Developing and maintaining clients' websites, providing convenient and up-to-date information to the public, including a description of services offered, a searchable catalogue, dynamic submit forms, and an event calendar.
- Creating and supporting a donation management system, allowing admin to create, modify, search donations and generate receipts.
- Managing online ordering systems, contributing to clients' business improving against COVID-19.
- Cooperating with a web designer, to conform to accessibility guidelines and to respond to various users' environments.

Programmer

Future Access Inc.

09/2017 – 05/2018

St. Catharines, Ontario

- Modified a calendar system, synchronizing with Google Calendar APIs and Outlook APIs
- Created database and set REST APIs, applying to mobile applications.
- Set up Amazon Web Service (AWS) and moved a developed project on it, using the cloud service.

Programmer (Co-op)

Future Access Inc.

05/2017 – 08/2017

St. Catharines, Ontario

- Made unit tests for REST APIs, providing the results by testing with fake data.
- Fixed bugs, according to bug reports
